

Professional Garden Maintenance

Weekly or fortnightly visits as needed. In many cases fortnightly visits are sufficient A flat monthly fee based on the quantity of plants covers everything and there are no surprises. If you already have a maintenance service which you are not happy with, please do contact us for a quotation to take over the upkeep of your indoor plants. We Offering the finest in interior landscaping, design, installations and professional maintenance services.

Watering

Plants checked on each visit and watered as required

Cleaning

Plants dusted, polish applied where suitable, pots wiped over, dead leaves removed from plant and pots

Trimming

Unhealthy leaves and stems removed, plants pruned to shape

Pest control

We do not use chemicals for pest control on indoor plants. General hygiene measures to physically remove pests are employed. Should this fail, plants are removed and replaced.

Replacement plants

any plants falling below an acceptable standard are replaced automatically. There is no charge for this, unless required due to damage or theft .
